Subject: Pratibimb Online Edition 2015 Writeup.

To: Dharvi Verma <dharvi.verma@gmail.com>

Welcome to the 2015 online edition of Pratibimb, the official biannual magazine of BVPIEEE. BVPIEEE has always strived to cater to multi-dimensional interests and has stayed true to that motto with Pratibimb, which records contributions from students all across Delhi and 'reflects' their literary abilities.

BVPIEEE, since its advent almost 9 years ago, has always promoted IEEE as a platform to share knowledge through interactive sessions, seminars, conferences and field trips, thereby staying true to the essence of IEEE. It has been a learning process more than anything and throughout this course, we at the student branch have successfully conducted various technical events in every academic session, winning awards and recognition in the process. More than that, it has been the establishment of a talent pool where students interact and exchange ideas with people from various institutes and disciplines, that makes us proud. We aim to further expand the branch in the near future and are looking forward to conduct one of our premier events - the annual fest 'Fervour' with enthusiasm and zeal. Another successful flagship event of BVPIEEE is 'Dr. Vikram Sarabhai Rotating Shield Quiz' which has been extremely successful.

We release, with utmost pride and enthusiasm, the newest edition of Pratibimb with promise of an even bigger published edition during Fervour. For any further queries and reviews, feel free to contact us. We look forward to a positive response in the near future and hope your association with BVPIEEE will be an enriching experience.

Regards,
Yamini Jain (Chairperson)
